

▶ **IN SUPPORT OF YOUR GOALS**

Accelerate your lead discovery efforts through informatics enhancement and integration

Does your informatics software help you reach your research objective; or does it hinder?

As technology changes, legacy applications can contribute to this information flow bottleneck.

Learn how we can improve the flow of your research information while maintaining scientific control over the informatics used in the discovery process.

INFORMATICS INTEGRATION

Science-centered solutions

Self-service web applications

Prebuilt components, including:

- LeadMarker™
- Open source tools

Integration with 3rd Party Software

- MDL® ISIS & Isentris
- IDBS® ActivityBase
- Spotfire® DecisionSite
- Daylight
- ChemAxon
- Accelrys®/Scitegic
- Tripos®

Strong teamwork in cooperation with your internal developers and staff

▶ **Custom Informatics**

BENEFITS

- User tailored reporting
- Lower support costs
- Information integration

FEATURES

- Custom development
- Software integration
- Data mining and reporting
- Application support
